

# GRAND TRAVERSE BAY WATERSHED PROTECTION PLAN

December 2003

***REVISED DECEMBER 2005***

Sarah U'Ren, Project Coordinator  
The Watershed Center Grand Traverse Bay  
232 East Front Street  
Traverse City, MI, 49684

# ACKNOWLEDGEMENTS

Many organizations and agencies were committed to helping create the Grand Traverse Bay Watershed Protection Plan. We would like to thank participants for their involvement in making this project possible.

The United States Environmental Protection Agency (U. S. EPA) provided support and funding through Section 319 of the Clean Water Act.

The Michigan Department of Environmental Quality has overseen and administered this grant from the EPA. Specifically, Greg Goudy from the Cadillac District Office has offered invaluable guidance and support throughout the entire planning process.

Additionally, members of the steering committee have played a crucial part in the Grand Traverse Bay Watershed Protection Plan by providing technical and informational assistance as well as offering guidance on project components.

Steering committee members include: Sarah U'Ren, Anne Brasie, John Nelson, and Anne Hansen (The Watershed Center Grand Traverse Bay); Greg Goudy (Michigan Department of Environmental Quality); Jim Muratzki (Land Information Access Association); Matt Heiman (Leelanau Conservancy); Jim Haveman and Laura Keuhn (Conservation Resource Alliance); Megan Olds and Viet Doan (Northwest Michigan Council of Governments); Tom Wessels (Grand Traverse Regional Math, Science, and Technology Center); Matt McDonough (Grand Traverse Regional Land Conservancy); Peg Comfort (Elk River Chain of Lakes Steering Committee), Ray Ludwa (Torch Lake Protection Alliance), Gordon Hayward (Peninsula Twp. Planner); Russ Adams (Silver Lake Association); Mary Wilson and Patty O'Donnell (Grand Traverse Band of Ottawa and Chippewa Indians); Steve Largent and Lew Coulter (Grand Traverse Conservation District); Maureen Kennedy-Templeton (Grand Traverse County Drain Commissioner); Tom Buss (Grand Traverse County Health Department); Russ LaRowe (Kalkaska Conservation District); Natasha Lapinski and Chris Grobbel (Ball Environmental Associates); Tom Emling (MSU-North); Barbara Nelson-Jameson (National Park Service); Bob Cole and Tim Lodge (City of Traverse City); Tom Kelly (Inland Seas Education Association); Gerry Harsch (Garfield Township Planner); John McKinney and Mark Breederland (MSU Sea Grant); Bruce Knapp, Tom Adams, Buzz Long and Pepper Bromelmeier (Natural Resources Conservation Service); Bryan Pijanowski (Purdue University, formerly of MSU).

Special thanks go to the following organizations for assisting in completing specific project tasks:

- The Conservation Resource Alliance has facilitated the steering committee meetings as well as conducted the project evaluation for the initial version of the plan (2003).
- The Land Information Access Association developed an interactive website to support the planning process ([www.gtbbay.org](http://www.gtbbay.org)) (2003 and 2005).
- The Northwest Michigan Council of Governments (NWMCOG) entered and formatted the shoreline survey data into a GIS database and assisted in compiling data layers and

maps for the protection plan (2003). Additionally, the NWMCOG summarized master plans and zoning ordinances for all local governments in the watershed (2005).

- Grand Traverse Regional Land Conservancy and the Leelanau Conservancy have identified ecologically significant parcels of land for water quality protection in the Boardman River watershed and Leelanau County (2003).
- Northwestern Michigan College (NMC) Business Research Services conducted the stakeholder attitudinal survey and business focus groups to assess awareness and attitudes regarding watershed issues (2003).
- Peninsula Township provided valuable assistance in the development of a Shoreline Owner's Quick Reference Guide to provide its residents with information regarding best management practices to use on their Great Lakes shoreline property (2003).
- The Grand Traverse and Antrim Conservation Districts completed road stream crossing and streambank erosion surveys for subwatersheds in their service areas (2005).

In addition, the following individuals provided valuable feedback during the review process: Peg Comfort, Ray Ludwa, and employees of the City of Traverse City.

# TABLE OF CONTENTS

CHAPTER 1	EXECUTIVE SUMMARY.....	1
CHAPTER 2	INTRODUCTION .....	7
CHAPTER 3	DESCRIPTION OF THE GRAND TRAVERSE BAY WATERSHED .....	9
	3.1 LOCATION AND SIZE .....	9
	3.2 WATER BODIES.....	11
	3.3 POPULATION .....	13
	3.4 JURISDICTIONS.....	17
	3.5 LAND USE/LAND COVER .....	24
	3.6 GEOLOGY, SOILS, AND TOPOGRAPHY .....	32
	3.7 HYDROLOGY AND CLIMATE.....	36
	3.8 ECONOMY, TOURISM, AND RECREATION .....	41
	3.9 SUBWATERSHED SUMMARIES .....	43
	3.10 OTHER CONSIDERATIONS: GROUNDWATER.....	58
	3.11 EXISTING WATER QUALITY INFORMATION AND RESULTS .....	
	FOR GRAND TRAVERSE BAY WATERSHED.....	60
CHAPTER 4	DESIGNATED AND DESIRED USES.....	68
	4.1 DESIGNATED USES IN THE STATE OF MICHIGAN.....	68
	4.2 IMPACTED DESIGNATED USES IN THE GRAND TRAVERSE .....	
	BAY WATERSHED .....	70
	4.3 DESIRED USES .....	71
CHAPTER 5	WATER QUALITY PROBLEMS .....	72
	5.1 THREATENED DESIGNATED USES: POLLUTANTS, SOURCES .....	
	AND CAUSES .....	72
	5.2 PRIORITY POLLUTANT RANKING .....	80
	5.3 PRIORITY AREAS .....	84
	5.4 POLLUTANTS OF CONCERN .....	94

5.5	SPECIAL SOURCES OF CONCERN: STORMWATER, LACK OF RIPARIAN BUFFER, AND MASTER PLANS AND ZONING ORDINANCES.....	118
CHAPTER 6	WATERSHED GOALS AND OBJECTIVES.....	135
CHAPTER 7	IMPLEMENTATION TASKS.....	144
7.1	SUMMARY OF IMPLEMENTATION TASKS .....	144
7.2	BEST MANAGEMENT PRACTICES .....	146
7.3	LIST OF IMPLEMENTATION TASKS BY CATEGORY .....	155
7.4	INFORMATION AND EDUCATION STRATEGY.....	194
7.5	EVALUATION PROCEDURES .....	231
CHAPTER 8	FUTURE EFFORTS.....	234
8.1	WHAT COMES NEXT? .....	234
8.2	CURRENT WORK AND EFFORTS .....	236
CHAPTER 9	CONCLUSIONS.....	237
REFERENCES CITED	.....	239
